Banner Design Photo Usage Guideline

TROOPERS **recruiter-related banner designs** must include **at least one recruiter photo** that represents the relevant job role. Do not use photos taken from social media or copied from Google. All images must come from **AI-generated sources, official TROOPERS photoshoots, or licensed stock websites** to ensure they fit the brand's visual identity.

Avoid blurry, pixelated, or dark. Every image should be clean, professional, and visually consistent.

Each image should have a clean and balanced composition, focusing on the people, activities, and event environment. Lighting should be bright, clear, and natural to make the photo easy to view and suitable for design use.

Photos must be clear and well-aligned, with subjects looking natural. Avoid messy, busy, or distracting backgrounds, or photos that are too dark and make the subject difficult to see.

✗ Don't Use Poor Lighting

Avoid taking photos in low-light conditions. Lighting should always be bright, clear, and natural to maintain good visibility.

Design Style (Iconography)

Iconography

TROOPERS iconography should be **simple, and modern**. Our icons use **rounded geometric forms** to reflect the TROOPERS brand. Each icon should **follow a flat** or **semi-flat** style with clean, smooth edges.

The overall icon style must look professional, and clear, matching TROOPERS corporate tone.

Why TROOPERS Uses Rounded Geometric Forms

TROOPERS use **rounded geometric forms** in our icons and designs because they make TROOPERS look **friendly** and **welcoming**. TROOPERS connects job seekers, manpower, and employers, so we want everyone to feel **comfortable and safe on our platform**.

In many Asian cultures, round shapes mean **harmony, unity, and balance**. Using them shows that TROOPERS cares about building community and trust.

Digital & Print Materials

Digital & Print Material (Social Media Banner Guidelines)

Social media banners created in the TROOPERS tone must use the **TROOPERS logomark**, placed at the **top right**, and follow our brand colours, layout rules, and overall visual style. During festive seasons, banners may include **festive colours, icons, and themed elements**, but the TROOPERS brand identity must always remain clear and consistent.

When a **client requires the use of their branding**, the design should follow the client's tone and include **"A Verified Job By:"** alongside the **TROOPERS primary logo**. CTA messages should not include phone numbers; instead, all social media banners must use the **Job Code** in the TROOPERS App as the call-to-action for job applications.

To maintain strong visual consistency across all designs, **photos** should always be positioned on the **right side** or **centered**. This ensures a clean, balanced that aligns with the TROOPERS brand system.

Client Tone (1:1)

Incorrect Social Media Banner Design (Don'ts & Do)

✗ Use the Wrong Logo Placement

Do not place the TROOPERS logo anywhere other than the top right when using the TROOPERS tone. The logomark must always appear at the top right to maintain consistency.

✗ Don't Place Photos Randomly

Avoid placing talent or phone images anywhere on the banner, as it disrupts visual balance. Incorrect placement can make the layout feel heavy or unprofessional.

✗ Add Unapproved Contact Information

Avoid including any phone numbers in the call-to-action. Only the job code in the TROOPERS App should be included for applications.

Digital & Print Material (TROOPERS App Banner)

Banners (10:4)

Appear at the top of the TROOPERS App as **campaigns** or **promotions**. It is not always necessary to include the TROOPERS logo, but it can be added if needed. These banners may also include a call-to-action (CTA) button.

Spotlight Banners (1:1)

Use a **strong headline** such as 'Retail Assistant' or the client's logo (with approval), along with a clear call-to-action (CTA) like 'Join Us Today.' Talent **images must appear small at the bottom-right** because this area is displayed smaller in the app. The design tone may follow the client's branding if approval is given.

Job Banners (16:7)

Must clearly show the **job title / headline** and include **"A Verified Job By:"** with the **TROOPERS primary logo**. If the client requires their branding, place their logo at the top-right and follow their design tone. Use **Asian talent** images at the bottom-right to represent the job role.

Digital & Print Material (Website & Mobile Mockup)

All TROOPERS website and mobile mockups must be **aligned and proportionate** to ensure a professional and realistic presentation. When showcasing phone or WMS screenshots, they must be **fitted within the mockup frame** (laptop, tablet, or phone) without any empty gaps, as improper fitting indicates incorrect sizing.

Screenshots may be captured using **any phone brand, PC or laptop**, provided they are clear, high-resolution, and correctly scaled.

Mockups should maintain a clean, balanced layout that highlights the actual TROOPERS feature, campaign, or message, such as job listings, or shift management tools.

Incorrect Website & Mobile Mockup Usage (Don'ts)

✗ Don't Use Misaligned or Improperly Fitted Screenshots

Avoid mockups where **screenshots don't fit perfectly** within the device frame, as gaps or misalignment make the design look unprofessional.

✗ Don't Use Unrelated Content in Mockups

Avoid using screenshots that **don't match the campaign** or feature being promoted.

✗ Don't Use Low-Quality or Distorted Screenshots

Avoid screenshots that are **blurry or pixelated**. Always use high-resolution visuals that maintain the correct aspect ratio to ensure the mockup looks professional.

All digital designs must follow TROOPERS brand rules when using the TROOPERS tone. Use the correct logo type for the design and **keep layouts clean and easy to read on any screen**. Use clear, **high-quality images** and make sure everything can be viewed clearly on screen. Do not add phone numbers; use the **Job Code** or a **button link** for job applications. All digital files should look clear and consistent with the TROOPERS brand style. **The same guidelines also apply when designing for client tone.* For example, digital name cards, Digital posters or announcements, Email headers (EDM), and Internal slide graphics.

Always use the correct TROOPERS colours, fonts, and logo rules for **TROOPERS Tone Design**, and make sure there is enough empty space around the logo. Layouts should be clean and easy to read from a distance. Use **high-quality images** and avoid anything blurry. Every print file must include **bleed** (extra background for cutting), **safe margins** (space to protect important text), and **proper alignment** (everything in the right place) to avoid printing or cutting issues. Whether it is a brochure, poster, flyer, or signage, all printed materials must look clean, professional, and consistent with the TROOPERS brand. **The same guidelines also apply when designing for client tone.*
